SCALLOP CUT

CORBEL CUT

MITER CUT

BEVEL CUT

Make the most of your patio or sunroom project with Duralum's extensive line of Weatherwood™ products. Available in four distinctive cuts and eight natural color choices, Weatherwood™ offers a lifetime of beauty and value.

All designs are configured for loads as high as 30 lbs. per square foot, wind speeds up to 110 mph and seismic activity Category D. Each Weatherwood™ component adheres to the same strict standards – from design to quality control to engineering specifications – and all meet or exceed national building codes.
